

ICHS Top Ten List

Our special residents who have been here a while and would love to find their forever home with you!

#1 AUBREY JEAN – AUGUST 2015 **Aubrey Jean** is one of those independent gals who insists on having things her way! She is a Tortie (tri-colored tortoise/tabby) and those of you who know your tri-colored female felines know that they can be a bit temperamental! She enjoys attention and being petted, but without warning, she will let you know that “enough is enough”! Aubrey spends her time in the kennel manager’s office where she has the freedom to come and go. Aubrey needs to be an only cat. If you are NOT interested in a lap cat or do NOT

want to spend a lot of time brushing/petting, etc., she just might be the kitty that YOU are looking for! ☺

#2 YUNA - JANUARY 2017 **Yuna** is a 4-5 year old beauty! She is a long-haired diluted Torti and she comes complete with the “torti-tude” (translated to mean that she is an independent lady). Yuna loves attention but she will let you know when she has had enough fun and for this reason a home without young children would be best. She lives with other cats and like the rest of the gang in The Catnip Lounge, she respects the other cats’ space and expects the same courtesy from the others. She plays, loves attention and enjoys (and needs) being brushed. Although Yuna is quite content here at ICBS, she would be even happier living at YOUR house! Just ask her!

#3 FUJI – JANUARY 2018 **Fuji** is a 2-3 year old Torti and is a “classic” Torti. She is beautiful, charming and independent! She loves people and loves to play. Fuji enjoys the luxury of living in one of the cat condos which is good because she is a very active and athletic cat. She can be a bit vocal which, of course, is to get YOUR attention. She also makes cute little chattering noises which add to her character. She is a sweet and charming kitty – but by describing her as a “classic” Torti, that would indicate that Fuji is all about Fuji! She will need to be an

only cat and although she loves people, younger children will probably not fit into Fuji’s lifestyle. Come and ‘experience’ Fuji today!

#4 KITTY – JANUARY 2018 **Kitty** is a pretty 2-3 year old ‘typical’ Torti. She’s ‘typical’ because of her independent nature (yes, all cats are independent but Torties are especially notorious for that characteristic)! Although she is independent, she is still a sweetie – just ask her! She loves to play but will give up playtime in order to sit on YOUR lap for some well-deserved attention – she loves attention! Kitty will want YOU all to herself so she will be more than pleased to be YOUR ‘one and only’! She doesn’t like to be confined to a cage and is anxiously awaiting the day when she has YOU and a home! Can YOU make that happen?

#5 SOCKS – FEBRUARY 2018 **Socks** is a young brown and white tabby. When he first came in he had such a “kittenish” appearance but not so anymore – he is a big, handsome dude! Socks is timid with anyone that he doesn’t know. If taken to a M&G room by someone that he doesn’t know, he backs into a corner and will not interact. But if he knows you, it’s an entirely different scenario! He loves to play and loves attention. Socks had been in

one of the community cat rooms for a time, but he liked to “tease” some of the other kitties and so he now lives in a cage. Socks probably can live with other cats; he is a good-natured guy – just a bit “quirky”!

ICHS Top Ten List

Our special residents who have been here a while and would love to find their forever home with you!

#6 ALTHEA APRIL 2018 *Althea* is a young “interesting” tabby. She prefers her solitude and so a quiet home is a necessity. She lives in the office and as comfy as the couch may be, as soon as someone that she doesn’t know walks into the office, she makes a ‘beeline’ for her cage. She likes attention from people that she knows but she never relaxes because she is constantly on the lookout for “the unknown”. She will more than likely be a totally different cat once she

settles into YOUR home, but that’s somewhat of a problem because it may take weeks before she will warm up to YOU. Although she can live with other cats she would prefer NOT to – being an only cat would be best. *Althea* probably is OK with her situation here at the shelter, but she needs a home!

#7 NALLA – MAY 2018 *Nalla* is a sweet “unassuming” cat that takes shelter life in stride. Her previous owner (3 kitties) moved and she was only allowed to have 2 pets at her new residence and so *Nalla* came to ICHS. Although very shy at first, she has adjusted well. She does well with other cats (having lived in *both Larry’s Living Room* and *The Catnip Lounge*). *Nalla* is about two years old. She enjoys attention and loves to be brushed. She seems not to get excited about much of anything which would include showing enthusiasm when YOU come to visit. YOU will have to seek her out, but if YOU are looking for a sweet kitty that will adjust quickly – look no further – *Nalla* is here waiting just for YOU!

#8 TWEED - JULY 2018 If you’re wondering why anyone would name a lovely young lady ‘*Tweed*’ – well, there is a reason. When a litter of kittens comes to the shelter, they’re named after a ‘common theme’ (easier to keep track of family members). So, this litter of kittens and their mother was named after ‘fabric’ (I’m not sure why ‘fabric’ was chosen). *Madras* (the mother) and the siblings (*Twill*, *Poplin* and *Merino*) have since been adopted but *Tweed* remains behind. She was the shy one of the family (I wonder if her name contributed to a self-image problem ☺)! The good news is that once YOU make her a part of YOUR family, YOU can change her name! *Tweed* is no longer a kitten but a sweet, shy young lady and lives in *Larry’s Living Room*.

#9 CREPE & LEFSE – AUGUST 2018 *Crepe* (male) and *Lefse* (female) are siblings – no surprise as they look and act so much alike. It has been suggested that perhaps they have Abyssinian ancestry as their coloring and features do give that impression. They were quite shy but then they discovered that people meant “playtime” and now eagerly await volunteers and toys (don’t forget the toys!)

Actually they both (*Lefse* especially) are starting to appreciate “lap time” as well. They are about 7-8 months old and get along with other cats. Although siblings, they are not closely bonded so do not need to be adopted together.

#10 DACA – SEPTEMBER 2018 *Daca* is a strikingly beautiful, 3-4 year-old quiet lady. *Daca* was adopted from ICHS in the fall of 2017 but was returned this past September. She and the other cat didn’t do well together so it will probably be best if *Daca* is YOUR only cat. She is very ‘unassuming’ and patiently waits for volunteers to FINALLY get around to give her some attention. She is a sweetie but will more than likely do nothing out of the ordinary to grab

YOUR attention! So...please be on the lookout for *Daca*!
