For Immediate Release

A message from the Iowa County Humane Society staff, board, volunteers, and animals:

With the situation changing day by day, the priority of ICHS continues to be the safety of our staff and volunteers who fulfill the shelter's primary goal of providing the best care for the animals.

ICHS continues, and will continue, to provide animal support services to the communities of Iowa County during this public health crisis.

We are open for business by appointment and we are available to answer questions by phone. Our shelter will continue to be staffed, and animals will continue to receive medical care.

We will continue to honor our obligations to the municipalities that have contracted with ICHS. Animals from un-contracted municipalities will be taken on case-by-case as resources permit.

ICHS provides a Pet Food Pantry to families-in-need, and is ready to respond to as many more food pantry requests as our resources permit.

Donations of pet food for our food pantry program will be gratefully accepted. At this time we are not able to accept donations of other items due to the COVID-19 virus, but monetary donations would be extremely helpful.

We are actively seeking to expand our list of foster homes in anticipation of the upcoming kitten season and other emergency needs. Applications for foster are available online at <https://ichs.net/volunteer-help/foster-home-application/>

Updates will be posted to the ICHS Facebook page and on our website www.ichs.net.

We are here to support the animals of Iowa County and their caregivers — please contact us if you are in need.
